PROFILE

Computer Science and Information Technology student aspiring to become a Full Stack Developer, with a strong foundation in back-end technologies including ASP .NET Core, C#, SQL, and MVC architecture. Skilled in problem-solving using C and C++, and experienced in competitive programming through participation in ECPC. Knowledgeable in software development, OOP, data structures, and algorithms, and currently learning front-end technologies like JavaScript. Actively developing real-world skills through the Digital Egypt Pioneers Initiative (DEPI). Eager to contribute to dynamic teams and build scalable web applications.

EDUCATION

Faculty of Computer Science – Helwan University (2023-2027)
Major- information system (IS)

SKILLS

Technical Skills

- Programming: C, C++, C#, JavaScript (learning)
- Web Development: HTML, CSS, ASP .NET Core, MVC, LINQ, REST APIs
- Databases: SQL Server
- Tools: Git, GitHub, Visual Studio
- Concepts: OOP, Data Structures, Algorithms, Problem Solving

Soft Skills

- Fast learner and team player
- Work independently.
- Communication skills.
- Coding and problem-solving skills

LANGUAGES

Arabic: Native

English: very good

COURSES

Object-Oriented Programming -Mainders Student Activity

- Learned the core OOP concepts including encapsulation, inheritance, polymorphism, and abstraction

Full Stack Web Development Track -Digital Egypt Pioneers Initiative (DEPI)

- Focused on ASP.NET Core for back-end development
- Learned SQL Server, MVC architecture, and LINQ

Front-End Basics -Self-paced – YouTube

- Covered HTML5 and CSS3 fundamentals
- Introduction to JavaScript (in progress)

EXPERIENCE

Clinic Management System

Role: Frontend Developer | HTML, CSS, JavaScript, UML Diagrams

- Developed the user interface for a clinic management system and contributed to the system's design by creating multiple UML diagrams to visualize architecture and workflows.

Online Learning Platform – Educational Platform,

Role: Frontend Developer | HTML, CSS, JavaScript

- Designed and built the frontend of an educational web platform inspired by Udemy

Conversion System

Role: Developer | C, UI Development

- Created a conversion tool that handles binary, decimal, octal, and hexadecimal systems, with support for Big Integers. Designed a simple UI to improve user interaction.
